

GROW YOUR SAVINGS WITH ACCESS ACCUMULATOR

INVESTMENTS

WE ARE COMMITTED TO HELPING YOU
BUILD A SOLID
FINANCIAL FUTURE
WITH OUR INVESTMENT PRODUCTS.

Let us help you grow your money so you can enjoy life's little treasures from a minimum investment of R500.

Access Accumulator is African Bank's flexible investment product. Unlike a Notice Deposit account where you have to give a 7, 32 or 90 days' notice before withdrawing your funds; Access Accumulator gives you immediate access to your money at any time either partially or fully within 24 hours of request. The interest rate on this account increases each month for the duration of the investment term. Thus, the longer you keep the Access Accumulator investment, the greater the return.

Features:

1. You have immediate access to your money at any time either partially or fully within 24 hours of request.
2. Interest will increase with 0.15% every month.
3. A minimum opening amount of R500 is required.
4. No additional deposits can be made in the account.
5. Interest pay-out will only take place on expiry.
6. Statements can be emailed to you monthly or are available on request from the call centre.
7. After 24 months the investment matures and you may consider re-investment options or pay-out.

HOW IT WORKS

- You can open the account in the branch and you will receive a proof of application document as well as an SMS with your reference number.
- The deposit can be made via debit order or EFT.
- A SMS will be sent once your deposit has been received by African Bank.
- A change in the Reserve Bank interest rate will not affect the rate structure of the access accumulator investment.
- Interest can either be paid on expiry or full withdrawal, whichever occurs first.
- Ask your branch consultant or see the internet for the most up-to-date interest rates.
